<b>Office Action Summary</b>	<b>Application No.</b> 10/506,733	<b>Applicant(s)</b> FUKUKAWA, TAKAO	
	<b>Examiner</b> Bradley T. King	<b>Art Unit</b> 3683	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Drawings***

Figure 7 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: "can rotates" should read "can rotate". Line 7 of claim 1. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Fieldman (US# 1991201).

Fieldman discloses all the limitations of the instant claims including; a rotation shaft 26 disposed along an axis of a body case 10, a partition wall 24a provided so as to partition a space formed between the rotation shaft and the body case, a vane member 25a disposed to be rotatable with rotation of the rotation shaft in a liquid chamber partitioned by the partition wall in which viscous liquid is charged, wherein the vane member can rotate while allowing its upper end surface, lower end surface and tip end surface to respectively slide on a lower surface of a closing member which closes an opening of the body case, an inner surface of a bottom wall of the body case and an inner peripheral surface of the body case, the vane member partitions the liquid chamber into a pressure chamber and a non-pressure chamber, a liquid passage which has a large hole portion 48 and a small hole portion 47 smaller than the large hole portion, which penetrates the vane member in a direction portion being substantially parallel to an axial direction, the large hole portion being in communication with the pressure chamber, and the small hole communication with the non-pressure chamber, and a valve body 49 movably disposed in the large hole portion of the liquid passage.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kanno et al and Moorhouse.
